

Darmstadt, November 2025

REED Project hosts its 2nd General Assembly Meeting in Darmstadt

The **REED Project** (Responsive, Efficient and Enhanced Digital Manufacturing), funded by the **Horizon Europe** programme, successfully held its **2nd General Assembly (GA) Meeting on 4–5 November 2025** at the **Institute of Production Management, Technology and Machine Tools (PTW), Technical University of Darmstadt**.

Over the course of two days, **partners from across Europe** gathered to review the project's progress, exchange insights, and align on next steps across **technical, exploitation, and dissemination activities**. The meeting provided a valuable platform for each **Work Package** to present updates and milestones, with particular focus on advancing REED's integrated **Manufacturing-as-a-Service (MaS) platform**.

Key highlights included:

- Deep dives into the **technical architecture, services development, integration status, and pilot developments**.
- Discussions on **stakeholder engagement and market positioning**.
- Updates on the **Dissemination & Communication strategy and Innovation Management**.
- Coordination on upcoming **deliverables and collaboration** with REED's Sister Projects under the **Horizon Europe CL4-2024-TWIN-TRANSITION-01-03 cluster**.

Press Release

The REED consortium reaffirmed its commitment to building a more **sustainable, agile, and digital manufacturing landscape** in Europe by leveraging **data-driven tools, servitisation, and value network reconfigurability**.

Stay tuned for more updates and upcoming events on the REED website: <https://reed-eu.eu>
